## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U:S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3 and 4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Pickard (US Patent No. 3,120,282).

Pickard discloses a wireline core bit comprising water swivel 20; drill rod 10; core barrel 37; inner tube 30; overshot assembly 125 that "is hydraulically propelled towards the core barrel inner tube assembly which is to be withdrawn" (col. 10, lines 49-50); drill chuck 17 to grab and rotate the drill string. Water swivel 20 has ports to receive fluid from tubular 22 and to provide fluid to tubular 21.

In reference to claim 4, Pickard discloses mechanism 122 to withdraw inner tube 30 from said drill rod.

## Response to Arguments

Applicant's arguments filed 11/09/2007 have been fully considered but they are not persuasive.

Applicant argues that the rejection to claim 3 should be withdrawn as Pickard does not disclose water supply ports at an upper and lower position to accommodate the overshot assembly. Water swivel 20 has an upper water supply port 111A and a

lower water supply port (not numbered) near threads 18 to provide fluid communication to the borehole.

Applicant's arguments with respect to claim 4 have been considered but are moot in view of the new ground(s) of rejection.

## Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
